The amendment received 3/3/10 has been entered and claims 1, 5, 7-14, 16-17, 24-31 are currently pending in this application. Phone calls to the attorney of record to resolve the following issues were not returned.

In view of amendments to the claims and arguments presented, the rejections of record under 35 USC 112, first paragraph, 102(b) over Suzuki and 103(a) over the combination of Suzuki in view of Carlson are hereby withdrawn.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 5, 7-14, 16-17, 24-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Each of the following applies in all occurrences.

In claim 1(a) line 2 "with or without" would not work in the claimed invention because it requires both with and without a chemical inducer. In claim 1(a) "capable of" is indefinite because the inducer must stimulate superoxide production to work. In claim 1(b) basal superoxide production must be known but there are no steps to measure the basal production. Further, as presented claim 1 does not require testing with an inducer but the last step does require it. In claim 16 "such as" is indefinite as to what may or may not be intended. Further, claim 16 lacks antecedent basis where it depends from claim 1 which includes no drug. In claim 17 line 4 "their" is unclear as to who may be intended. In claim 25 (b) line 6 "the same stimulation conditions" is unclear as the same as what.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
